54 Court Street - Pertsmouth, New Hampshire 03801

Board of Selectmen Town of Newington Newington, New Hampshire

We have examined the financial statements of the various funds and the general long-term dobt group of accounts of the Town of Newington, New Hampshire for the year ended December 31, 1974, listed in the foregoing table of contents. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

In our opinion, the financial statements listed in the aforementioned table of contents present fairly the financial position of such funds and the general long-term debt group of accounts of the Town of Newington at December 31, 1974, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The accompanying supplemental schedules and related information presented on pages 7, 11 and 12 are not necessary for a fair presentation of the financial statements, but are presented as additional analytical data. This information has been compiled from the accounting records which were subjected to the tests and other auditing procedures applied in the examination of the basic financial statements and in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

(Mr.) Irenee R. Lebel
Certified Public Accountant

February 13, 1975

#### TOWN OF NEWINGTON, NEW HAMPSHIRE GENERAL NOTES TO FINANCIAL STATEMENTS

### Summary of Significant Accounting Policies

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

### Fund Accounting

The diverse nature of governmental operations and the necessity of determining compliance with legal provisions requires modification of accounting systems commonly used by commercial enterprises. Rather than establishing a single unified set of accounts to record and summarize all financial transactions, the accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate entity with self-balancing accounts that comprise its assets, liabilities, reserves, fund balance, revenues and expenditures or expenses including interfund obligations and transfers.

Fiduciary activities of the Town are accounted for in the Trust Funds.

### Budgetary Accounting and Appropriations

General governmental revenues and expenditures accounted for in the General Fund are controlled by a budgetary accounting system in accordance with various legal requirements which govern the Town's operations.

Appropriations in the General Fund are recorded when a liability has been incurred for goods and services received. Commitments for goods and services to be received are recognized as segregated reserves of budgetary appropriations and accordingly are carried forward until expended.

The Town annually provides a reserve for such commitments for the School Department which operates on a fiscal year ending June 30.

### Basis of Accounting

The accounts of the Trust Funds are maintained and reported on a cash basis. The accounts of the General Fund and the Federal Revenue Sharing Fund are maintained and reported on the modified accrual basis.

Under the modified accrual basis of accounting, revenues are recorded when received in cash except in cases where they are both measurable and available and therefore are resources which may be appropriated. Expenditures, except for interest on general long-term debt which is recorded when it becomes due, are recorded when certain goods or services are received and actual liabilities are incurred.
